

BAREFOOT & COMPANY SAFETY COMMITMENT STATEMENT

The management of Barefoot and Company Inc. considers no phase of its operation or administration as being greater importance than safety. For this reason, Barefoot and Company, Inc. hereby establishes this policy so that employees, clients, subcontractors and other may understand its position on accident prevention and safety.

It is the policy of this company to take all practical steps to safeguard employees and the general public from accidents and to maintain an ongoing safe and effective organization.

Therefore, it is Barefoot and Company's Policy to:

1. Recognize and accept its management responsibility to institute the guidelines and the framework within which a good accident prevention program can prosper
2. Emphasize to all supervisors their personal responsibility to enforce safe working procedures and conditions with their employees and subcontractors.
3. Comply with the occupational and Safety and Health Act (OSHA) and the regulations issued under this act.
4. Comply with all Federal, State and Local laws pertaining to safety and health matters, as well as environmental issues.
5. Conduct an ongoing safety program with appropriate documentation as evidence of our efforts to provide a safe workplace and our desire to control losses.

If an employee becomes aware of an unsafe condition or would like to express a safety concern, please report it to your supervisor, or any member of management, immediately.
